

Brazil

20–30 November 2009

Participants:

Anthony Bates
Jill Gillman
John and Barbara Hallam
Noel Lock
Robert and Ann Murphy
Ian Shepherd
Graham and Catherine Whitby

Leader: Pete Forrest

Olive-green Tanager

Day 1: Departure from the UK.

Day 2: The group were picked up from Rio de Janeiro airport and transferred to Serra dos Tucanos Lodge. Species seen on the transfer included the following; Cocoi Heron, Kelp Gull, Brown Booby and Magnificent Frigatebird. On arrival at the lodge the group quickly settled into birding the gardens and watching many species of tanagers feeding at the bird tables and studying the several species of hummingbirds that regularly come to the sugar feeders on the verandas. **Species of note for the day included:** Maroon-bellied Parakeet, Saw-billed Hermit, Sombre Hummingbird, Black Jacobin, Violet-capped Woodnymph, Blond-crested Woodpecker, and Green-headed, Red-necked, Golden-chevroned, Brazilian and Ruby-crowned Tanagers.

Day 3: After breakfast we drove the ten minutes to the start of the Cedae trail. After lunch, the group birded the lodge trails. **Species of note for the day included:** Plain Parakeet, Yellow-eared Woodpecker, Scaled Woodcreeper, Black-capped Foliage-gleaner, Star-throated and Streak-capped Antwrens, Black-cheeked Gnateater and Olive-green Tanager.

Day 4: Clear skies meant an attempt at higher altitudes was warranted. The morning was spent on the upper section of the Pico de Caledonia access road. After lunch we birded the lower section. **Species of note for the day included:** White-rumped Hawk, Scale-throated Hermit, White-throated Hummingbird, Brazilian Ruby, Yellow-browed Woodpecker, Pallid Spinetail, Large-tailed Antshrike, Rufous-tailed Antbird, Swallow-tailed Cotinga, Black-and-gold Cotinga, Diademed Tanager, and Bay-chested Warbling-finch.

Day 5: After breakfast we made the one-hour drive to the Serra dos Orgaos National Park. The first couple of hours were spent in the lower section and the rest of the day was spent in the upper section of the park. **Species of note for the day included:** Thrush-like and Lesser Woodcreepers, White-browed Foliage-gleaner, Pale-browed Treehunter and Sharpbill.

Day 6: After breakfast, we drove the 20 minutes to the start of the Theodora trail. After lunch the group birded the lodge trails. **Species of note for the day included:** White-throated Woodcreeper, Red-eyed Thornbird, White-collared Foliage-gleaner and Bertoni's Antbird.

Day 7: The morning was spent at the Portao Azul trail. After lunch the group birded the Macae de Cima trail. **Species of note for the day included:** Plovercrest, Saffron Toucanet, Tufted Antshrike, Ferruginous Antbird, Bare-throated Bellbird, Gilt-edged Tanager and Half-collared Sparrow.

Day 8: The morning was spent at the Regua wetland reserve. After lunch the planned walk around the lodge grounds was postponed due to the exceptionally heavy rain. **Species of note for the day included:** Crescent-chested Puffbird, Sooretama Slaty-antshrike, White-flanked Antwren, and Long-billed Wren.

Day 9: Without doubt the Three-toed Jacamar is one of the target species of the whole week. We departed early for an hours drive to where the days birding began. **Species of note for the day included:** Red-legged Seriema, Slaty-breasted Wood-rail, Blue-winged Macaw, Three-toed Jacamar, White-eared Puffbird, Streamer-tailed Tyrant, Tail-banded Hornero, Firewood-gatherer and Hang-nest Tody-tyrant.

Day 10: The postponed walk around the lodge trails was done after breakfast. The group departed back to Rio for their flight home at 14.00. **Species of note for the day included:** Rufous-capped Motmot, Spot-breasted Antvireo, Rufous-capped Antthrush, and Pin-tailed Manakin.

During the groups stay we had a combined total of 239 species seen with a further 10 heard. A total of 72 Atlantic forest endemics were seen.

Pete Forrest, Serra dos Tucanos Lodge

FULL SPECIES LIST

Species in bold with a * are endemic to the Atlantic rain forest.

* **SOLITARY TINAMOU** (*Tinamus solitarius*) – One at the lodge on the 6th was the only record.

BROWN TINAMOU (*Crypturellus obsoletus*) – Heard only, at several locations.

BROWN BOOBY (*Sula leucogaster*) – Several recorded on the journey up from Rio on the 21st.

NEOTROPIC CORMORANT (*Phalacrocorax brasilianus*) – One seen on the journey up from Rio on the 21st.

MAGNIFICENT FRIGATEBIRD (*Fregata magnificens*) – Several were recorded from the Rio – Niteroi Bridge on the 21st.

COCOI HERON (*Ardea cocoi*) – Two were seen on the journey up from Rio on the 21st.

GREAT EGRET (*Ardea alba*) – Seen in most wet areas along the roadside when on excursions.

SNOWY EGRET (*Egretta thula*) – Several recorded on the journey up from Rio on the 21st.

CATTLE EGRET (*Bubulcus ibis*) – Seen commonly in any suitable habitat.

STRIATED HERON (*Butorides striatus*) – One at the wetland reserve and two on the Jacamar excursion.

WHISTLING HERON (*Syrigma sibilatrix*) – One on the Jacamar excursion on the 28th.

WHITE-FACED WHISTLING-DUCK (*Dendrocygna viduata*) – Four on the drive up from Rio and four at the wetland reserve.

BLACK-CROWNED NIGHT-HERON (*Nycticorax nycticorax*) – One seen on the journey up from Rio on the 21st.

BRAZILIAN TEAL (*Amazonetta braziliensis*) – Three at the wetland reserve and four on the Jacamar excursion.

BLACK VULTURE (*Coragyps atratus*) – Seen daily, common.

- TURKEY VULTURE** (*Cathartes aura*) – Seen almost daily, common.
- LESSER YELLOW-HEADED VULTURE** (*Cathartes burrovianus*) – Seen at the wetland reserve and on the Jacamar excursion.
- GREY-HEADED KITE** (*Leptodon cayanensis*) – One at the Portao Azul on the 26th.
- RUFIOUS-THIGHED KITE** (*Harpagus diodon*) – One at the wetland reserve on the 27th.
- PLUMBEOUS KITE** (*Ictinia plumbea*) – Two at the Portao Azul and on the Jacamar excursion.
- SAVANNA HAWK** (*Heterospizias meridionalis*) – Recorded in small numbers on most excursions.
- ROADSIDE HAWK** (*Buteo magnirostris*) – Recorded almost daily in small numbers.
- WHITE-TAILED HAWK** (*Buteo albicaudatus*) – Three on the Jacamar excursion.
- WHITE-RUMPED HAWK** (*Buteo leucorrhous*) – A single on the high altitude excursion on the 23rd.
- SOUTHERN CARACARA** (*Caracara plancus*) – Recorded almost daily from suitable habitats.
- YELLOW-HEADED CARACARA** (*Milvago chimachima*) – Recorded almost daily from suitable habitats.
- AMERICAN KESTREL** (*Falco sparverius*) – Three on the Jacamar excursion on the 28th.
- APLOMADO FALCON** (*Falco femoralis*) – Two on the Jacamar excursion on the 28th.
- DUSKY-LEGGED GUAN** (*Penelope obscura*) – Four at the Portao Azul on the 26th.
- * **SLATY-BREASTED WOOD-RAIL** (*Aramides saracura*) – Seen on several dates at the lodge and also Two were seen on the Jacamar excursion.
- RED-LEGGED SERIEMA** (*Cariama cristata*) – Two on the Jacamar excursion on the 28th.
- PURPLE GALLINULE** (*Porphyrio martinica*) – Seen at the wetland reserve.
- COMMON MOORHEN** (*Gallinula chloropus*) – Seen at the wetland reserve and on the drive up from Rio.
- WATTLED JACANA** (*Jacana jacana*) – Recorded almost daily in suitable habitats.
- SOUTHERN LAPWING** (*Vanellus chilensis*) – Recorded almost daily in suitable habitats.
- KELP GULL** (*Larus dominicanus*) – Small numbers were recorded on the journey from Rio.
- PICAZURO PIGEON** (*Patagionas picazuro*) – Small numbers recorded most days.
- PALE-VENTED PIGEON** (*Patagionas cayennensis*) – Two on the Jacamar excursion on the 28th.
- RUDDY GROUND-DOVE** (*Columbina talpacoti*) – Seen in small numbers almost daily.
- WHITE-TIPPED DOVE** (*Leptotila verreauxi*) – One at the lodge on the 29th.
- GREY-FRONTED DOVE** (*Leptotila rufaxilla*) – Two on the Cedae and one on the Theodora trails.
- BLUE-WINGED MACAW** (*Ara maracana*) – Five on the Jacamar excursion on the 28th.
- WHITE-EYED PARAKEET** (*Aratinga leucophthalmus*) – Flocks of up to thirty birds on two dates.
- * **MAROON- BELLIED PARAKEET** (*Pyrrhura frontalis*) – Small numbers recorded in the lodge gardens daily. Also seen on several of the excursions.
- * **PLAIN PARAKEET** (*Brotogeris tirica*) – One at the lodge on the 22nd and four there on the 29th.

SCALY-HEADED PARROT (*Pionus maximiliani*) – Recorded within the lodge grounds on several occasions, also on several of the excursions.

SQUIRREL CUCKOO (*Piaya cayana*) – One or two birds were recorded almost daily.

SMOOTH-BILLED ANI (*Crotophaga ani*) – Seen commonly in any suitable habitat.

GUIRA CUCKOO (*Guira guira*) – Seen commonly in any suitable habitat.

FERRUGINOUS PYGMY-OWL (*Glaucidium brasilianum*) – One at the lodge on the 26th.

BURROWING OWL (*Athene cunicularia*) – Singles on the high altitude and Jacamar excursions.

WHITE-COLLARED SWIFT (*Streptoprocne zonaris*) – Groups of up to three hundred birds recorded daily.

BISCUATE SWIFT (*Streptoprocne biscutata*) – A flock of thirty on the Jacamar excursion on the 28th.

ASHY-TAILED SWIFT (*Chaetura Andrei*) – Up to five birds daily on three dates.

GREY-RUMPED SWIFT (*Chaetura cinereiventris*) – Birds going to roost were seen on several dates at the lodge.

* **SAW-BILLED HERMIT** (*Ramphodon naevius*) – Recorded almost daily around the lodge.

* **SCALE-THROATED HERMIT** (*Phaethornis eurynome*) – Up to five birds daily on three dates.

REDDISH HERMIT (*Phaethornis ruber*) – One at the lodge on the 25th and one at the wetland reserve on the 27th.

SWALLOW-TAILED HUMMINGBIRD (*Eupetomena macroura*) – Four on the Jacamar excursion on the 28th.

* **BLACK JACOBIN** (*Melanotrochilus fuscus*) – Seen daily around the lodge and on several of the excursions.

* **PLOVERCREST** (*Stephanoxis lalandi*) – One on the Macae de Cima trail.

GLITTERING-BELLIED EMERALD (*Chlorostilbon aureoventris*) – One on the high altitude excursion on the 23rd.

* **VIOLET-CAPPED WOODNYMPH** (*Thalurania glaucopis*) – Seen daily around the lodge and on several of the excursions.

WHITE-CHINNED SAPPHIRE (*Hylocharis cyanus*) – One at the wetland reserve on the 27th.

* **WHITE-THROATED HUMMINGBIRD** (*Leucochloris albicollis*) – Up to three birds daily on three dates.

SAPPHIRE-SPANGLED EMERALD (*Polyerata lacteal*) – One on the Jacamar excursion on the 28th.

* **SOMBRE HUMMINGBIRD** (*Campylopterus curruhchloris*) – Recorded daily at the lodge.

* **BRAZILIAN RUBY** (*Clytolaema rubricauda*) – Three on the high altitude excursion and one on the Theodora trail.

AMETHYST WOODSTAR (*Calliphlox amethystine*) – One at the Portao Azul on the 26th.

SURUCUA TROGON (*Trogon surrucura*) – Seen or heard on most forested excursions.

RINGED KINGFISHER (*Ceryle torquata*) – Singles on three dates.

AMAZON KINGFISHER (*Chloroceryle amazona*) – One at the lodge on the 22nd..

GREEN KINGFISHER (*Chloroceryle Americana*) – Singles on two dates.

* **RUFIOUS-CAPPED MOTMOT** (*Baryphthengus ruficapillus*) – Two at the lodge on the 29th.

* **THREE-TOED JACAMAR** (*Jacamaralecyon tridactyla*) – As usual this bird performed very well with two being seen on the 28th.

RUFOUS-TAILED JACAMAR (*Galbula ruficauda*) – One at the wetland reserve on the 27th.

WHITE-EARED PUFFBIRD (*Hystalus chacuru*) – Two were seen on the Jacamar excursion on the 28th.

* **CRESCENT-CHESTED PUFFBIRD** (*Malacoptila striata*) – Two at the wetland reserve on the 27th.

* **SAFFRON TOUCANET** (*Bailloni*) – One at the lodge on the 26th.

SPOT-BILLED TOUCANET (*Selenidera maculirostris*) – Three at the lodge on the 22nd and two at the National Park on the 24th.

CHANNEL-BILLED TOUCAN (*Rhamphastos vitellinus*) – One at the lodge on the 25th.

WHITE-BARRED PICULET (*Picumnus cirratus*) – Seen or heard on most forested excursions.

CAMPO FLICKER (*Colaptes campestris*) – Groups of up to five birds were seen on two dates.

GREEN-BARRED WOODPECKER (*Colaptes melanochloros*) – Two at the National Park on the 24th.

* **YELLOW-BROWED WOODPECKER** (*Piculus auulentus*) – Up to three daily on three dates.

BLOND-CRESTED WOODPECKER (*Celeus flavescens*) – Recorded daily at the lodge.

WHITE WOODPECKER (*Melanerpes candidus*) – Up to four daily on three dates.

* **YELLOW-EARED WOODPECKER** (*Veniliornis maculifrons*) – Three at the lodge on the 22nd and one at the wetland reserve on the 27th.

LINEATED WOODPECKER (*Dryocopus lineatus*) – One at the Portao Azul and two on the Jacamar excursion.

* **TAIL-BANDED HORNERO** (*Furnarius figulus*) – One on the Jacamar excursion on the 28th.

RUFOUS HORNERO (*Furnarius rufus*) – Seen commonly in any suitable habitat.

* **RUFOUS-CAPPED SPINETAIL** (*Synallaxis ruficapilla*) – Heard only, on the Theodora trail.

SPIX'S SPINETAIL (*Synallaxis spixi*) – Four on the Theodora trail on the 25th.

* **PALLID SPINETAIL** (*Cranioleuca pallida*) – Up to two daily on three dates.

YELLOW-CHINNED SPINETAIL (*Certhiaxis cinnamomea*) – Four on the Jacamar excursion and four at the wetland reserve.

COMMON THORNBIRD (*Phacellodomus rufifrons*) – Several were seen on the Jacamar excursion on the 28th.

* **RED-EYED THORNBIRD** (*Phacellodomus erythrophthalmus*) – Seen or heard on three dates.

FIREWOOD-GATHERER (*Anumbius anumbi*) – Three on the Jacamar excursion on the 28th.

STREAKED XENOPS (*Xenops rutilans*) – Up to two daily on three dates.

* **PALE-BROWED TREEHUNTER** (*Cichlocolaptes leucophrus*) – One at the National Park on the 24th.

BUFF-FRONTED FOLIAGE-GLEANER (*Philydor rufus*) – Up to four daily on three dates.

* **BLACK-CAPPED FOLIAGE-GLEANER** (*Philydor atricapillus*) – One at the lodge on the 22nd and one on the Theodora trail on the 25th.

BUFF-BROWED FOLIAGE-GLEANER (*Syndactyla rufosuperciliata*) – Heard only, on the high altitude excursion.

* **WHITE-COLLARED FOLIAGE-GLEANER** (*Anabezenops leucophthalmus*) – Singles at the Portao Azul and Theodora trails.

- * **WHITE-BROWED FOLIAGE-GLEANER** (*Anabacerthia amaurotis*) – Two at the National Park on the 24th.
- SHARP-TAILED STREAMCREEPER** (*Lochnias nematura*) – The breeding pair was regularly seen at the lodge.
- * **THRUSH-LIKE WOODCREEPER** (*Dendrocincla turdina*) – A single at the National park on the 24th.
- OLIVACEOUS WOODCREEPER** (*Sittasomus griseicapillus*) – Recorded almost daily in suitable habitat.
- * **WHITE-THROATED WOODCREEPER** (*Xiphocolaptes albicollis*) – Heard (and glimpsed by one of the group) at the National Park but refused to respond to playback.
- * **LESSER WOODCREEPER** (*Lepidocolaptes fuscus*) – Up to four daily on two dates.
- * **SCALED WOODCREEPER** (*Lepidocolaptes squamatus*) – Two at the lodge on the 22nd and one at the National Park on the 24th.
- * **BLACK-BILLED SCYTHEBILL** (*Campylorhamphus falcularius*) – Heard only, at the National Park.
- * **SPOT-BACKED ANTSHRIKE** (*Hypodaleus guttatus*) – Heard only, at the lodge on the 29th.
- * **TUFTED ANTSHRIKE** (*Mackenziaena severa*) – One at the Portao Azul on the 26th.
- * **LARGE-TAILED ANTSHRIKE** (*Mackenziaena leachii*) – One on the high altitude excursion on the 23rd.
- CHESTNUT-BACKED ANTSHRIKE** (*Thamnophilus palliatus*) – Three at the wetland reserve on the 27th.
- * **SOORETAMA SLATY-ANTSHRIKE** (*Thamnophilus ambiguous*) – One at the wetland reserve on the 27th.
- VARIABLE ANTSHRIKE** (*Thamnophilus caerulescens*) – Up to three daily on three dates.
- * **SPOT-BREASTED ANTVIREO** (*Dysithamnus stictothorax*) – Two at the lodge on the 29th.
- PLAIN ANTVIREO** (*Dysithamnus mentalis*) – Seen or heard on most forested excursions.
- * **STAR-THROATED ANTWREN** (*Myrmotherula gularis*) – Heard or seen on most days in forested habitat.
- WHITE-FLANKED ANTWREN** (*Myrmotherula axillaries*) – Six at the wetland reserve on the 27th.
- * **FERRUGINOUS ANTBIRD** (*Drymophila ferruginea*) – A single at the Portao Azul on the 26th.
- * **BERTONIS ANTBIRD** (*Drymophila rubricollis*) – One on the Theodora trail on the 25th.
- * **RUFIOUS-TAILED ANTBIRD** (*Drymophila genei*) – Four on the high altitude excursion on the 23rd.
- * **OCHRE-RUMPED ANTBIRD** (*Drymophila ochropyga*) – One on the Macae de Cima trail on the 26th.
- * **DUSKY-TAILED ANTBIRD** (*Drymophila malura*) – One at the Portao Azul on the 26th.
- * **STREAK-CAPPED ANTWREN** (*Terenura maculata*) – Seen or heard on most forested excursions.
- * **WHITE-SHOULDERED FIRE-EYE** (*Pyriglena leucoptera*) – Seen or heard on most forested excursions.
- * **BRAZILIAN ANTTHRUSH** (*Chamaeza ruficauda*) – Heard only, at several locations.
- RUFIOUS-CAPPED ANTTHRUSH** (*Formicarius colma*) – Two at the lodge on the 29th.
- * **BLACK-CHEEKED GNATEATER** (*Conopophaga melanops*) – Recorded at the lodge on several dates.
- * **SLATY BRISTLEFRONT** (*Merulaxis ater*) – Heard only, on the Theodora trail.
- * **SERRA DO MAR TAPACULO** (*Scytalopus notorius*) – One on the high altitude excursion on the 23rd.

* **WHITE-BREASTED TAPACULO** (*Scytalopus indigoticus*) – Heard only, at the Portao Azul.

SWALLOW-TAILED COTINGA (*Phibalura flavirostris*) – Five on the high altitude excursion on the 23rd.

***GREY-WINGED COTINGA** (*Tijuca condita*) – One on the high altitude excursion on the 23rd.

* **BLACK-AND-GOLD COTINGA** (*Tijuca atra*) – Heard on several dates and four were seen on the high altitude excursion on the 23rd.

***BARE-THROATED BELLBIRD** (*Procnias nudicollis*) – At least four were seen on the Macae de Cima trail on the 26th.

WHITE-BEARDED MANAKIN (*Manacus manacus*) – Three at the wetland reserve on the 27th.

***BLUE MANAKIN** (*Chiroxiphia caudata*) – Recorded on all trips into the forest, giving very pleasing views on several occasions.

***PIN-TAILED MANAKIN** (*Ilicuramilitaris*) – Two at the lodge on the 29th.

***SERRA TYRANT-MANAKIN** (*Neopelma chrysolophum*) – Singles on the high altitude and Portao Azul excursions.

YELLOW TYRANNULET (*Capsiempis flaveola*) – Two on the Portao Azul excursion on the 26th.

OLIVACEOUS ELAENIA (*Elaenia obscura*) – Two on the high altitude excursion on the 23rd.

YELLOW-BELLIED ELAENIA (*Elaenia flavogaster*) – Singles on three dates.

OCHRE-BELLIED FLYCATCHER (*Mionectes oleaginous*) – Heard only, at the lodge.

* **GREY-HOODED FLYCATCHER** (*Mionectes rufiventris*) – Heard only, at the lodge.

SEPIA-CAPPED FLYCATCHER (*Leptopogon amaurocephalus*) – Two on the Theodora trail and two at Macae de Cima.

MOTTLE-CHEEKED TYRANNULET (*Phylloscartes ventralis*) – Two at Macae de Cima on the 26th.

* **SERRA DO MAR TYRANNULET** (*Phylloscartes difficilis*) – One on the high altitude excursion on the 23rd.

PLANALTO TYRANNULET (*Phyllomyias fasciatus*) – Two on the Theodora trail on the 25th.

***GREY-CAPPED TYRANNULET** (*Phyllomyias griseocapilla*) – One at the lodge on the 22nd.

EARED PYGMY-TYRANT (*Myiornis auricularis*) – Singles on three dates.

***HANGNEST TODY-TYRANT** (*Hemitriccus nidipendulus*) – One on the Jacamar excursion on the 28th.

OCHRE-FACED TODY-FLYCATCHER (*Todirostrum plumbeiceps*) – Seen or heard on several excursions.

* **YELLOW-LORED TODY-FLYCATCHER** (*Todirostrum poliocephalum*) – Seen or heard on most forested excursions

COMMON TODY-FLYCATCHER (*Todirostrum cinereum*) – Two at the wetland reserve on the 26th.

YELLOW-OLIVE FLYCATCHER (*Tolmomyias sulphurescens*) – One of the commonest flycatchers being seen or heard almost daily.

BRAN-COLORED FLYCATCHER (*Myiophobus fasciatus*) – Two at the Portao Azul on the 26th.

EULER'S FLYCATCHER (*Lathrotriccus eulerei*) – One at the National Park on the 24th.

WHITE-RUMPED MONJITA (*Xolmis velata*) – Two on the Jacamar excursion on the 28th.

BLUE-BILLED BLACK-TYRANT (*Knipolegus cyanirostris*) – Five on the high altitude excursion on the 23rd.

MASKED WATER-TYRANT (*Fluvicola nengeta*) – Recorded daily at the lodge and on several of the excursions.

WHITE-HEADED MARSH-TYRANT (*Arundicola leucocephala*) – Four at the wetland reserve and one on the drive up from Rio.

STREAMER-TAILED TYRANT (*Gubernetes yetapa*) – Eight were seen on the Jacamar excursion on the 28th.

LONG-TAILED TYRANT (*Colonia colonus*) – Up to three daily on three dates.

YELLOW-BROWED TYRANT (*Satrapa icterophrys*) – Two on the Jacamar excursion on the 28th.

CATTLE TYRANT (*Machetornis rixosus*) – Four on the Jacamar excursion on the 28th.

* **SHEAR-TAILED GREY-TYRANT** (*Muscipipra vetula*) – Four on the high altitude excursion on the 23rd.

* **GREY-HOODED ATTLA** (*Attila rufus*) – Recorded almost daily at the lodge and on several of the excursions.

GREAT KISKADEE (*Pitangus sulphuratus*) – Recorded daily from any suitable habitat.

BOAT-BILLED FLYCATCHER (*Megarhyncus pitangua*) – Recorded almost daily from any suitable habitat.

SOCIAL FLYCATCHER (*Myiozetetes similis*) – Recorded almost daily from any suitable habitat.

RUSTY-MARGINNED FLYCATCHER (*Myiozetetes cayanensis*) – Two at the wetland reserve on the 27th.

STREAKED FLYCATCHER (*Myiodynastes maculatus*) – Recorded almost daily at the lodge and on several of the excursions.

VARIEGATED FLYCATCHER (*Empidonomus varius*) – Recorded almost daily from any suitable habitat.

SWAINSON'S FLYCATCHER (*Myiarchus swainsoni*) – One on the Portao Azul excursion on the 26th.

SHORT-CRESTED FLYCATCHER (*Myiarchus ferox*) – One at the wetland reserve on the 27th.

FORK-TAILED FLYCATCHER (*Tyrannus savana*) – Seen commonly in any suitable habitat.

TROPICAL KINGBIRD (*Tyrannus melancholicus*) – Recorded daily from any suitable habitat.

CHESTNUT-CROWNED BECARD (*Pachyramphus castaneus*) – Up to three daily on four dates.

WHITE-WINGED BECARD (*Pachyramphus polychopterus*) – One on the Jacamar excursion on the 28th.

CRESTED BECARD (*Pachyramphus validus*) – One at the lodge on the 21st.

SHARPBILL (*Oxyruncus cristatus*) – One at the National Park on the 24th.

GREY-BREASTED MARTIN (*Progne chalybea*) – At least five in the local town.

BROWN-CHESTED MARTIN (*Progne tapera*) – Small numbers were seen on the Jacamar excursion on the 28th.

WHITE-RUMPED SWALLOW (*Tachycineta leucorrhoa*) – Small numbers were seen on the Jacamar excursion on the 28th.

BLUE-AND-WHITE SWALLOW (*Pygochelidon cyanoleuca*) – Recorded daily from suitable habitats.

SOUTHERN ROUGH-WINGED SWALLOW (*Stelgidopteryx ruficollis*) – Recorded almost daily from suitable habitats.

BLACK-CAPPED DONACOBIOUS (*Donacobius atricapillus*) – Three on the Jacamar excursion.

* **LONG-BILLED WREN** (*Thryothorus longirostris*) – Three at the wetland reserve on the 27th.

MOUSTACHED WREN (*Thryothorus genibarbis*) – Two at the wetland reserve on the 27th.

HOUSE WREN (*Troglodytes aedon*) – Recorded daily from any suitable habitat.

CHALK-BROWED MOCKINGBIRD (*Mimus saturninus*) – Common in any open scrubland habitat.

YELLOW-LEGGED THRUSH (*Platycichla flavipes*) – At least four at the National Park and two on the high altitude excursion.

RUFIOUS-BELLIED THRUSH (*Turdus rufiventris*) – Recorded daily from any suitable habitat.

PALE-BREASTED THRUSH (*Turdus leucomelas*) – Recorded most days at the lodge and on several of the excursions.

CREAMY-BELLIED THRUSH (*Turdus amaurochalinus*) – Recorded most days at the lodge and on several of the excursions.

RUFIOUS-BROWED PEPPERSHRIKE (*Cyclarhis gujanensis*) – Recorded almost daily from suitable forest habitat.

RED-EYED VIREO (*Vireo olivaceus*) – Recorded most days at the lodge and on several of the excursions.

RUFIOUS-CROWNED GREENLET (*Hylophilus poecilotis*) – Up to three daily on three dates.

GOLDEN-CROWNED WARBLER (*Basileuterus culicivorus*) – Recorded almost daily from any suitable forested habitat.

* **WHITE-RIMMED WARBLER** (*Basileuterus leucoblepharus*) – Recorded almost daily from any suitable forested habitat.

BANANAQUIT (*Coereba flaveola*) – Recorded daily from many locations.

CHESTNUT-VENTED CONEBILL (*Conirostrum speciosum*) – One at the National Park on the 24th.

MAGPIE TANAGER (*Cissopis leveriana*) – One at the Portao Azul on the 26th.

* **OLIVE-GREEN TANAGER** (*Orthogonys chloricterus*) – One on the Cedae trail on the 22nd.

* **RUBY-CROWNED TANAGER** (*Tachyphonus coronatus*) – Recorded daily in the lodge grounds and other locations.

BLACK-GOGGLED TANAGER (*Trichothraupis melanops*) – Recorded almost daily in small numbers in suitable forest habitat.

RED-CROWNED ANT-TANAGER (*Habia rubica*) – Four on the Cedae trail on the 22nd.

* **BRAZILIAN TANAGER** (*Ramphocelus bresilius*) – Recorded daily in the grounds of the lodge and various other locations.

SAYACA TANAGER (*Thraupis sayaca*) – Recorded daily in the grounds of the lodge and various other locations.

* **AZURE-SHOULDERED TANAGER** (*Thraupis cyanoptera*) – One at the National Park on the 24th.

* **GOLDEN-CHEVRONED TANAGER** (*Thraupis ornata*) – Recorded almost daily from any forested habitat and at the lodge garden.

PALM TANAGER (*Thraupis palmarum*) – Recorded daily in the grounds of the lodge and various other locations.

VIOLACEOUS EUPHONIA (*Euphonia violacea*) – Commonly recorded on the feeders at the lodge.

ORANGE-BELLIED EUPHONIA (*Euphonia xanthogaster*) – Commonly recorded on the feeders at the lodge.

* **CHESTNUT-BELLIED EUPHONIA** (*Euphonia pectoralis*) – Commonly recorded on the feeders at the lodge.

* **GREEN-HEADED TANAGER** (*Tangara seledon*) – Recorded everyday from the feeders by the lodge and in suitable lowland forest habitats.

* **RED-NECKED TANAGER** (*Tangara cyanocephala*) – Recorded regularly within the grounds of the lodge and in suitable lowland forest habitats.

* **BRASSY-BREASTED TANAGER** (*Tangara desmaresti*) – Up to fifteen daily on four dates.

* **GILT-EDGED TANAGER** (*Tangara cyanoventris*) – One at the Portao Azul and six on the Jacamar excursion.

BURNISHED-BUFF TANAGER (*Tangara cayana*) – Recorded almost daily on the feeders by the lodge and from suitable forested habitat.

RUFIOUS-BACKED TANAGER (*Hemithraupis ruficapilla*) – One at the Portao Azul on the 26th.

YELLOW-BACKED TANAGER (*Hemithraupis flavicollis*) – One at the National Park and two at the lodge.

DIADEMED TANAGER (*Stephanophorus diadematus*) – Ten on the high altitude excursion on the 23rd.

BLUE DACNIS (*Dacnis cayana*) – Recorded almost daily in small numbers.

GREEN HONEYCREEPER (*Chlorophanes spiza*) – A pair at the lodge on several dates.

SWALLOW TANAGER (*Tersina viridis*) – Singles on the Jacamar excursion and Theodora trail.

BLUE-BLACK GRASSQUIT (*Volatinia jacarina*) – Recorded in small numbers on the Jacamar and wetland excursions.

DOUBLE-COLLARED SEEDEATER (*Sporophila caerulescens*) – Recorded in small numbers from suitable farmland habitats.

SOOTY GRASSQUIT (*Tiaris fuliginosa*) – Heard only, at the wetland reserve.

SAFFRON FINCH (*Sicalis flaveola*) – Recorded daily from any suitable habitat.
